Street,

30 Cornhill, London, Colonial Secretary's Office, New Westminster, 22d October, 1864. THE GOVERNOH DIRECTIN IT TO

The notified that it is his intention to bring before the Legislative Council a Bill revising the Land Laws of this Colony, and particularly as affecting the method of acquiring unsurveyed Crown Lands. From and after the date of this notice, until the question has been decided by the Legislature from pre-emption, and instructions have been given to the several Magnetates not to receive any further record of pre-emption, unless with the sanction of the Government. This sanction will be granted in every instance where it shall appear that the transol likely to be prejudiced.

SIGNED STATES GOOD,

CHARLES GOOD,

CHARLES GOOD, For the Colonial Secretary

NOTICE.

-TO-

To Mariners entering Fraser River

d RED.

—North Sand Head, half of a cable to the ard of Buoy, placed in five leet at low water quished by a large Diamond formed with, elevated on a pole 20 feet above the piles, encon is all BLACK.

3—North Sand, about half the distance become all and Black Buoy; distinguished to and black horizontal stripes; placed in 6 low water.

Ball Bhoys and Beacons on the North side of the channel are to be passed on the port hand.

The instructions issued by Captain Richards, R. N. in the V 1. and B. C. Pilot, are still applicable for entering Fraser River. The Beacons constructed on the Sands indicating the locality of the buoys, remove a great dilibouity intherto experienced by awaygators in the great three constructions of the construction will be found in valuable, as by taking care to port sufficiently soon, so as to cross when in a line, they will lead over the Bar, carrying from 19 to 22 feet at high water, in all other parts of the channel much deeper water will be (pund). After the Red Top Beacon is brought with a step rounded; then steet in direction for the White Buoy and Beacon, and from thence to Gorry Point.

Victoria. 7th May, 1864. SUBSCRIPTION LIST WILL BE

To the Citizens of Victoria.

GENTLEMEN.--AT THE WRITTEN request of a large proportion of the members of the House of Assembly, as also the personal solicitation of various influential citizens. I beg to office myself as a candidate for the Mayoralty. The Provisional Act of 1863 will be inoperative on the 30th of the present month, and the Incorporation Act of 1862 will be then alone in force, under which the election of a Mayor and Council is valid.

The Act of Incorporation of 1862 can be worked and made subservient to many needful improvements in the City, whilst the more recent legislative enactment as to the one half of one per cent tax on real estate (which is now paid to the Colonial Treasurer), will surnish sufficient means to diquidate the present Cuy habilities and leave the corporate revenue for 1865 tree.

Should you elect me I shall take means to reduce the expenses of the corporation very considerably, as also to suggest to the Councillors the argency of equalizing the taxes, that they may be a lighter burden to the poor man.

When serving as senior Councillor, for nearly 15 months, my sole object was the good of the citizens, and you may rest assured if you make me your Chief Magistrate, I shall strive, without fear or favor, todo my duty lathfully.

"Enthave the honor to be, Gentlanen, Your must obdedient servant, John North Copland." Centlanen, Your most obdedient servant, John North Copland. JOHN COPLAND.

CITY OF VICTORIA.

CITY OF VICTORIA.

GENTLEMEN,--THE TIME FOR the annual Election of Mayor and Councilhors is now fast approaching. At the earnest request of many voiers of the city, I am again induced to offer myself as a candidate for the Mayor analty. Having already served you in that capacity for over two years, and having stated at the last Municipal Election that I should not again ask your sulfrages as a candidate for civic honors, I deem it my duty towards you to state my reasons for again allowing myself to be nominated as a candidate for office.

At the time of the last election I, in common with the Aunicipal body generally supposed that there was sufficient power granted under the 'Incorporation Act' to allow the Mayor and Council to continue the works then commenced and partially completed; and also to make many further imprevenents for the general benefit, such as a general process which were then in more an expected with the sum of the principal streets with gas, and oth important improvements which were then in moratinate in the suit of the "Corporation vs. Ring," had the effect of rendering the Council powerless during the past year for any thing useful, and prevented the carrying out of any of the numerous improvements intended. During the first municipal year the Corporation incurred a liability in the shape of a loan, for the payment of which as yet means have only been in part provided. The proceeds of that loan were expended in making streets; and no doubt you, fellow electors, feel with me that the liability thus incurred should be promptly and faithfully met, and I had hoped that during the past year such measurer would have been adopted by the Corporation as would have placed the repayment of the loan beyond doubt, but owing to the Incorporation Act being held to be invalid, such measures which I promised to support when last before you, and have consequently concluded to offer you my services for another year, contrary to my expectation. Had the means been at the disposal of the Corpo Bank of British North America. Assay Office, Victoria, V. I.

#### JOB PRINTING. THE BRITISH COLONIST PUB LISHING COMPANY having received a large

THE IRREPRESSIBLE QUESTION. The transfer of the Assembly—will come up once more for discussion. The despatches from His Excellency Goreror Kennedy and the Home authorities, laid before the House on Tuesday last, will according to resolution, be taken into "scrious consideration." The letter from Mr Card-will is a mathematical problem we would like very consideration. The letter from Mr Card-will is a mathematical problem we would like very consideration. cordance with the proposition of the Duke of Newcastle, to compile "a statement of the past receipts and expenditure of the Crown fund" and forward it to the Colonial Office. On the strength of this document, His Excellency once more brings the Crown lands question before the members of the Assembly. He points out at some length the injurious effects on the interests of the colony of keeping the settlement of the question in continued abeyance, and ends his communication with the assurance that any action of the House will in no way prejudice the colony's claims against the Hudson's Bay Company. We agree with His Excellency in the advisability of having the matter definitely settled-in removing fruitful causes of Indian disturbances as well as obstacles to schemes of immigration; but there are other matters of equally great importance which require consideration, and which might lead us at the present juncture to refuse the propositions laid down by the Duke of New-

On the 2d of July last, to meet a difficulty caused by a despatch from the Colonia: Office, the House passed certain resolutions he might expend from either the Crown or Colonial revenue, in paying the salaries of Ch ef Justice, Attorney General, Surveyor General, and Treasurer. The action of the House in this matter was one of merely temporary expediency, to guarantee the salaries the above officers pending the rectifying a blunde which, it was considered, the Secretary for the Colonies had made, in asking the Colony to pay all the salaries but those of the the question until a reply to the resolutions of

There are, however, other grounds or which this Crown Land question should be postponed. His Excellency has only recently been in a position, through the printing o the minutes of the Crown Lands Committee, to lay the result of the Committee's labors before the Imperial authorities. It would be wise, therefore, to await the action of the Home Government on the question. We have had too many years of Imperial procrastination to be forced into an arrangement in a few months. It is our turn now to processtinate. Let Her Majesty's sage advisers feel that, small as we are, we can return inconvenience for neglect, and it will probably create some little reform in our Imperial relations; for if there is one thing more than another which your true Downing-Street Barnacle detests, it is bother. Only threaten him with a little extra work, and show him that you can enforce the threat, and you make him the most pliable of shell-fish. Let us take over the Crown Lands to-morrow, and we relieve him of considerable labor and annoyance; but, with all the Governor's assuronce to the contrary (and we do not doubt for a moment His Excellency's sincerity), let us relieve Mr. Barnacle of the Crown Lands, and ent of the question between ourselves and the Hudson's Bay Company. Whatever reason might have existed some months ago for taking over the Crown property, there are stronger reasons now why the matter should be delayed. We have got demands to make on the Home authoraties for important changes in the construction of our Government. Let these be first obtained, and let His Excellency's statistics, which he is requested by Mr. Cardwell to furnish in conquested by Mr. Cardwell to furnish in connection with the financial condition of the miracles of Xavier have never been apported by Protestant Missionaries, and the number of Protestant Christians of all House accepts a proposition of so serious a character at the present juncture of our colonial affairs. Six or seven months at the best will place things in a more definite shape, and enable the people to judge clearly of the merits of the question. We shall know, at all events, what the Home Govern-

ment are inclined to do in the Hudson's Bay

and how much abler are the colonists to pay for their spiritual wants than a country with its "own millions enthralled by ignorance and vice." The Bishop of Columbia figures spoken of as not unlikely to bear away the complex conspicuously in the demand for palm from his opponents.—N. Pacific Times. self-interested and contagious evil, can be palm from the constitution of the contagious evil, can be palm from the contagious evi chrical aid-asking for no less a number than

consideration." The letter from Mr Cardwell is in answer to a communication from His Excellency, in reference to sending home the public accounts for audit. In that despatch the Secretary for the colouies gives Governor Kennedy the rather gratitious information, that in colonies possessing representative institutions the only accounts over which the colonial office exercises any supervision are those in connection with Crown property. Mr. Cardwell also desires His Excellency, in the event of the Crown lands not being accepted by the Assembly in accordance with the proposition of the Duke of Newcastle, to compile "a statement of the vant. Says the Times:—

vant. Says the Times:—

If we were not becoming accustomed to episcopal manifestoes, a joint appeal from the four Archbishops of the United Church on Dehalf of Cotonial Missions would be a very impressive form of address. This document is issued in the name of the Prepagation Society, of which its framers are Vice-Presidents, but the somewhat whining cadence of a Missionary season. The Prime of Wales Rechaley is to be observed as sometime for an agencia findley in New West present season of the Propagation Society of which its frames and West Present as a general college of the Prime of St. College of th

Is any for the Colonies had made, in asking the Colony to pay all the salaries but those of the Governor and Colonial Secretary. If the action of the Colonial Secretary is the colonials, and force them into accepting the colonials are the colonial Secretary.

It is with no wish to cast tidicule on the Six tors trades. It is important that the secretary of State that the colony is called upon in accordance with the former despatch from Mr. Cardwell, to pay all the salaries but these of the Governor and the Colonial Secretary—or in other words, that the "blunder" his turned out the "trap." We can, however, exactly imaging that the Secretary of State for the Colonial Secretary—or in other words, that the "blunder" his turned out the "trap." We can, however, exactly imaging that the Secretary of State for the Colonial Secretary—or in other words, that the "blunder" his turned out the "trap." We can, however, exactly imaging that the Secretary of State for the Colonial Secretary—or in other words, that the "blunder" his trap is the stall into the colonial secretary of the Colonial Secretary—or in other words, that the "blunder" his trap is the stall into the colonial secretary of the Colonial Secretary—or in other words, that the "blunder" his trap. The characteristic of its that it shaped the secretary of the Colonial Secretary—or in other words, that the "blunder" his trap. The characteristic of its that it shaped the secretary of the Colonial Secretary—or in other words, that the "blunder" his trap. The characteristic of its that it shaped the secretary of the Colonial Secretary—or in other words, that the "blunder" his trap. The characteristic of its that it

may be quite right, and the time may be shot from the revenue cutter Shubrick, and a come when colonial churches should consti- guard placed on board; she still remains un the question until a reply to the resolutions of the 2d of July is received. If Mr. Cardwell maintains the position laid down in the despatch that brought forth these resolutions, then our only recourse is to demand responsible government, and thus obtain a full constrol of the public offices. To tie us down to pay a large civil list, in order that the representatives of the people may be checkmated by the irresponsible officials of the Upper House, is asking rather much of any British population.

The maintain the position laid down in the despatch that brought forth these resolutions, then our only recourse is to demand responsible powermment, and thus obtain a full constrolled the provide for their religious wants, or to undertake their religious duties? In what sense are the English poor who remain a home to be told that the primary obligation of finding churches and ministers for those who better themselves by emigrating the same their door? Why should the task of christianising the heathen tribes with whom our colonists come in contact, drive and lower over fifty ships and barks.

The Board of Underwriters offer \$1000 and the Supervisors \$250 reward for the arrest of persons having combustible material in their door? Why should the task of christianising the heathen tribes with whom our colonists come in contact, drive and lower are also were included to the properties of the same than the properties of the properties of the same than the properties of the same than the properties of the same than the properties of the properties of the same than the properties of the properties of the same than the properties of the passage of the Golden City to this of the rate of the properties of t

whom our colonists come in contact, drive and bargains, and carry on unjust wars at our expense be described as a work which English Christians cannot decline without contact and the processing of the contact and the contact are at the contact are at the port from foreign and domestic ports, nearly all of which have valuable It is against this exaggeration and distortion of a wholesale furth—not against the furth itself—that we emphatically protest. It is true that we should all strive, according to our means and opportunity, to promote the weifare and relieve the necessities, both spiritual and temporal, of our fellow creatures. It is false, and therefore mischievous, to assert that well-to-do colonists, or either their neathen neighbors whom they neglect, have a "sy ceal?" claim upon us—at Last, if this means that they have a claim prior to our own poor, cur own castaways, our own milliance. The following ressels were at Callao:—British frigate Leander, United States frigate Luncaster, Chilian frigate Esmeralda, and French corvette Lucifer.

PUGET SOUND ITEMS. il to their souls means that they have a claim priot to our sour poor, cur own castaxays, our own militions enthralked by ignorance and vice. It is not our fault that two such objects should be brought into competition. It is the fault of those who, attributing a magic virtue to Missionary Societies, and believing them to be the most potent agency for awakening a religious zeal, virtually sacrifice the greater duty to the less. Of course it is better to for any one to drop a shilling into the box of the Piopagation Society than to spend it in self-indulgence, but it might be better still to spend it, if possible in person, in works of courty at hone. In more than one colony a Bishop and some half dozen clergymen are employed in ministering to the wants of a few thousand Europeans and about a thousand natives—a population much smaller.

Salled.—The ship Clara Morse, Lawrence, sand natives—a population much smaller than some London incumbents have to tend than some London incumbents have to tend single-handed. It thay be true that without such a system and large subsidies, the Church in the colonies would scarcely hold her own against Dissenting bodies, but is that an end to be compared in importance with the salvation of those at our own doors from abject anisery and moral ruin? It is constantly impressed upon us that we have "a mission" to do the one; why is not the same pressure as ried to move us to do the other? Without in the least disparaging the value of Missionary efforts in India, we verily believe

t will give the company.

The Naminino miners are paid \$1 13 per ton to leliver clean coal at the pit's mouth. Mr. Landale thought it might cost 50 cents per ton more to mine this scam; therefore say: 

BAY WIII prove a most convenient and profitable fishing station.

PROPITS PROM SALE OF LANDS AND TOWN SITE.—This Company being proprietor of all the land around Callam Bay, which is a commodious harbor, and in the main well sheltered, will, in due time, lay out a town, already appropriately named in honor of the discoverer of these waters "Fuca." While a liberal policy will at first govern the Company in the disposal of theirlands and town lots, yet, if the main purpose of the Company-pany-coal mining—is prosecuted wither wiso the enterprise deserves, especially in view of the high price of coal on this ocean, and the rapidly increasing consumption, it can be no very distant day when the Company may point with pride to a having created a town bidding fair to rival the Newcastles and Readings of our Farent States. In Newcastles and Readings of our Farent States. In that event the lands of the Company must acquire great value.

ESTIMATE OF EXPENSES TO BE INCHERED.

ESTIMATE OF EXPENSES TO BE INCURRED. 

Total......\$85,000 In this estimate a large sum is allowed for incidentals, because, in all such enterprizes, many unexpected expenses arises; but it is confidently believed by the Company that before the expenditure of \$50,000, the mine will be earning a large income from the sale of soal. The reasons why seemall an outlay

counce. It is my opinion that the whole space colored pink on map, will be bearing ground." The space Mr. Landale mentions as colored pink would cover more than 15,000 acres, and at 2,250 tons per acre would hold about thirty-three millions of tons, or coal enough, supposing the mine to yield 300 tons per day, to last 390 years.

Mr. Landale says he is "of opinion that the coal will make a capital steam coal" and that "coal in this locality would have many advantages over any field yet discovered."

In conclusion Mr. Landale says, "If the bore is successful, a shaft should be sunk and a level driven about 300 yards, without breaking rooms. H must be borno in mind that in this prospectus the Company have presumed on nothing more than the seam of coal already discovered. Mr. Landale gave it as his opinion that in boring fifty fathoms thicker coals would be found, as this is of frequent occurrence in other carboniterous forof frequent occurrence in other carboniterous for mations, and almost universally so on this coast If this should prove true, the value of the mine great as it unquestionably is now, must be en hanced in proportion.

laid to any point of the bay (c. account of a), and out encountering att, engineering difficulties, and I do not think a wharf with shutes would be a difficult undertaking.

In conformity with Mr. Landale's advice a bore was put down at the point he recommended and the 22-inch seam was reached on the 12th September Iast, at a depth of 28 fathown. The Company intend to continue boring in hopes of finding the thicker coals which Mr. Landale expects will be found there. His judgment has been so happily proved in the former unstance that the comp-iny have the greater confidence in continuing to follow his advice. WORK ALREADY DONE.

A map of Clallam Bay and the coast from Sekot Point to Pillar Point, showing the harbor and adjacent coarrier, the situation of the present mine the point where the bore was put down, and Mr. Landale's outline of the coul measures, may be found at the office and agencies of the Company Published by order of the Board of Directors.

#### A CARD.

Nearly all of the companies in the bed of the stream had ceased working, and the general stream had ceased working, and the general cry among the claimbolders was to have them laid over till next year. Should this be done shortly, a great many of the miners who at present dare not leave their claims for fear of find by experience that it is desirable that some present dare not leave their claims for fear of losing them would at once commence prospecting the numerous dry gulches which exist around Leech river, and which although known in several cases to contain gold, could not be worked during the summer for want of water. Dissatisfaction existed among some of the beautiful companies on account of the conduct of the Commissioner in regard to the conduct of the con probation of my customers has often seemed o make my burden lighter. It shall be my had put a dam across the stream, causing the water to flow back on the claim above and preventing it from being worked. The owners of the latter having made several apowners of the latter baving made several ap-plications to the Commissioner for redress, without effect, have got up a remonstrance signed by a number of miners, which will be presented to the Commissioner, and if still unsuccessful, it will then be sent in to His Ex-

HENRY BURSTOW, Licensed Fishmonger. A CARD.

unsuccessful, it will then be sent in to His Excellency.

Mount Baker.—In our notice of the recent earthquake, we alluded to the fact of the summit of the volcano having undergone considerable change of late years, occasioned.

IODINE WATER. ODINE WATER IS THE MOST IMportast discovery of modern chemistry, and it is impossible to over-estimate its irfluence as a remedial agent. Iodine has been considered the most useful article in Materia Medica, and many of the most scientific and practical chemists and physicians have investigated its effects upon the human system. It is to act upon the human system. It is a first a first and physicians have investigated in the size of the human system. It is to act upon the human system. It is a first a first and physicians have investigated in the size of the human system. It is to act upon the human system. It is a first and physicians have investigated its influence as a remedial possible to over-restinate its influence as a remedial possible to over-remedial possible to over-rem

SCROFULOUS AFFECTIONS SCROFULOUS AFFACTANIAN
Notwithstanding the zeal and ability which have been devoted to its investigation, it remained almost uscless, until Dr. Henry Ancers, a physician and chemist of New York, after vears of patient labor and experiment, descovered a chemical process which enabled him to dissolve

without a solvent. This, considered impossible by the scientific world, is attested by certificates of analysis from Dr. J. R. Chiltion of this city, and Professor Booth, U. S. Mint, Philadelphia. The importance of this discovery was so highly appreciated by the Faculty that it was published in the Medical Journals, and its use recommended to practitioner (see American Medical Monthly, July 6), 1836, page 78.)

This valuable medicine is now available to the public for the cure of Scrofula in all its manifold.

public for the cure of Scrofula in all its manifold forms, Consumption, Cancer, Heart, Liver, and Kidney Diseases, Rheumatism, Neurulgia, Ner-vous Affections, Dyspepsia, Bronchitis, &c. AS A TONIC Its operation is evinced by strengthening the digestive organs and increasing the appetite. In heases of Dyspepsia, Emacistion and Debility an increasing nutritition of the body is the result of the employment of Iodine. The patient recovers flesh, strength and color; bitherty pale, relaxed and feeble, he becomes full, streng and forid. Full directions accompany each bottle. Sold by all Dregigists. Frice 31 per bottle. Prepared by Dr. II. Anders & Co., Physicians and Chemists, New York.
